The Bureau of Land Management is seeking public input on draft guidance to promote the use of wind and solar energy on public lands. The proposed update would reduce acreage rental rates and capacity fees for existing and new wind and solar energy authorizations on public lands. Once finalized, the updated guidance will provide enhanced financial and regulatory predictability for solar and wind energy projects authorized on public lands.

*The public is encouraged to concentrate its review and comment on the BLM's proposed reductions to rent and fee rates under the Energy Act of 2020 provisions. Comments should be submitted no later than February 2, 2022, to [energy@blm.gov](mailto:energy@blm.gov) with the subject: Comments on Draft update to BLM 2800 Right-of-Way Manual.*

Here is the link to the notice, other related documents and ways to submit your comments.

La Oficina de Administración de Tierras está buscando opiniones del público sobre el guía preliminar para promover el uso de energía eólica y solar en tierras públicas. La actualización propuesta reduciría las tarifas de alquiler de acres y las tarifas de capacidad para autorizaciones de energía solar y eólica nuevas y existentes en terrenos públicos. Una vez finalizada, la guía actualizada proporcionará una mayor previsibilidad financiera y regulatoria para los proyectos de energía solar y eólica autorizados en terrenos públicos. Se allenta al público a concentrar su revisión y comentarios sobre las reducciones propuestas por BLM a las tarifas de alquiler y tarifas según las disposiciones de la Ley de Energía de 2020.

Los comentarios deben enviarse a más tardar el 2 de febrero de 2022 a [energy@blm.gov](mailto:energy@blm.gov) con el asunto: Comentarios sobre la actualización preliminar del Manual de derecho de paso de BLM 2800.

Aquí está el enlace al aviso, otros documentos relacionados y formas de enviar sus comentarios.
