### New Life

Here is what you need to know about addictions. There are two types of addictions one can develop. One type of addiction is called "chemical addiction." A person takes into his or her body either alcohol or some other drug in order to simply feel different. Not everyone can develop a chemical addiction to alcohol, but other drugs can be highly addictive and have the potential to capture everyone who uses them.

The other type of addiction is called "process addiction." Process addiction include; gambling, eating and the internet or social media which can lead to pornography. These are some of the ways that we find comfort or attempt to handle life's problem. We get caught up in one of these chemical or process addictions and then get angry with ourselves because we can't stop. We are hurting and hurting people hurt people most often are our closest friends or companions. The answer is always is to take responsibility for the choices we make.

- I. Arterburn, Steven and Stoop, Dr. David A., Co-Authors of the New Life Recovery Bible, Tyndale House Publishers, Inc. 1998, Preface pp. 6-7.

A 12 step approach to taking responsibility for the choices we make in being offered at the community center upstairs West rear entrance from 5-6 PM on Wednesday nights. Coffee and pastry provided.

The Longstreet Stitchers are a group of ladies from Las Vegas and Bakersfield who are passionate about counted cross stitch and other forms of needlework. Four times a year they spend a weekend at Longstreet for lots of needlework, conversation, and laughter. They welcome anyone from the valley who would like to join them, see projects in process and completed, and spend a good time. They will be here January 11-13. Several of us from Amargosa will join them on Saturday, January 12th. Everyone from the valley is invited to bring your projects, your desire to learn a new craft, or your curiosity to see us at work and join us for an hour, a morning, or all day.
