<sup>1</sup> AD PRICES: 1/8 B&W - \$15, COLOR \$40; 1/4 B&W - \$25, COLOR - \$50; 1/2 B&W - \$50 COLOR - \$75; FULL PAGE B&W - \$100 COLOR - \$150.00. RELIGIOUS AND NON-PROFIT AD'S ARE FREE UNLESS IN COLOR, THEN \$50. PAYMENT MUST BE MADE TO THE TOWN OF AMARGOSA AND SHOULD ACCOMPANY AD. FOR NEW BUSINESS FIRST 1/2 PAGE AD IS FREE.

## What Uses Continue?

The proposed NCA is intended to keep public lands accessible and available for future generations. Future protected uses to include:

- Off-Highway Vehicle Recreation
- Wildlife Viewing
  - Hiking
  - Hunting
  - Camping
  - Photography
  - Rockhounding
- Others as identified by stakeholders

Additionally, existing uses such as utility corridors and existing mining operations would continue as they do today.

**Why Local Residents Support the NCA**  
 "People from Crystal are worried. We're worried about our water. We're worried about Ash Meadows and the wildlife. We're worried about blowing dust and pollution from solar and mining. We deserve a future free of these threats. The Ash Meadows NCA is our chance to direct BLM to do the right thing."  
 —Dawn Duncan, Resident of Crystal, NV

The NCA would only include the public land within the proposed boundary.

### GOALS of the Ash Meadows NCA:

1. Protect groundwater.
2. Keep public lands public.
3. Support balanced development.
4. Maintain recreation access.
5. Protect rural quality of life.

## ASH MEADOWS NATIONAL CONSERVATION AREA

Protecting Water.  
 Keeping Public Lands Public.  
 Supporting Rural Communities.

The proposed Ash Meadows National Conservation Area (NCA) would help conserve the public lands surrounding Ash Meadows while protecting groundwater, recreation opportunities, wildlife habitat, and the rural character of Amargosa Valley.

[www.saveashmeadows.org](http://www.saveashmeadows.org)

## Why Water Matters

Groundwater is the lifeblood of Amargosa Valley and the people who call the area home.

The same groundwater system that supplies local homes, farms, and businesses also sustains the springs and wetlands of Ash Meadows, one of the most biologically unique places in North America.

As pressure from large-scale solar energy, data centers, and mining increases, the question is not whether Amargosa Valley will change. The question is whether we will take steps today to protect the groundwater resources, open spaces, and rural character that make this community so great.

The proposed Ash Meadows National Conservation Area is one tool that can help safeguard these public lands and the groundwater that sustains our communities.

Learn more

## What Is a

### National Conservation Area?

**A National Conservation Area (NCA) is a designation established by Congress to conserve important public lands. It does not apply to private lands, even those within the boundary. It does not add any land to federal ownership.**

**National Conservation Areas are managed by the Bureau of Land Management and are designed to balance conservation, recreation, and other compatible uses of public lands.**

**The proposed Ash Meadows NCA would help protect groundwater resources, wildlife habitat, open space, and recreation opportunities while keeping public lands under BLM management.**

## FAQs

**Q: Would NCA take away private property rights?**

**A:** The proposed Ash Meadows NCA would apply only to existing public lands managed by the Bureau of Land Management (BLM). Private property ownership would remain unchanged. Landowners would continue to own, use, sell, inherit, and improve their property just as they do today.

BLM does not have eminent domain or condemnation authority for the acquisition of private property and the creation of an NCA does not change that. It would not add any land to the federal estate.

**Q: Would the NCA expand Ash Meadows National Wildlife Refuge?**

**A:** No. The refuge would remain exactly where it is today. The proposed NCA would be managed separately by the Bureau of Land Management.

**Q: Would the NCA transfer land to environmental groups or outside organizations?**

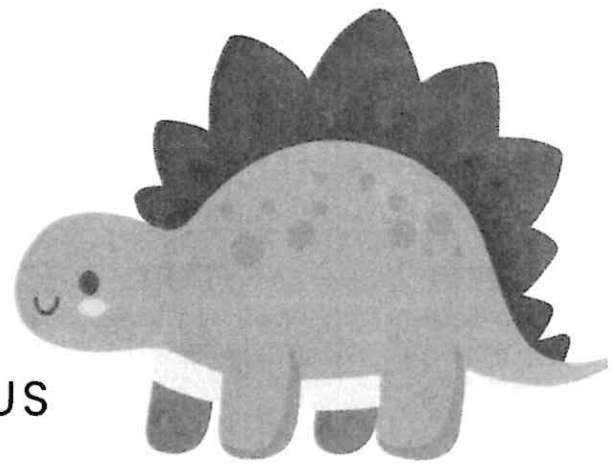

**A:** No. Public lands would remain public lands under BLM management.

**Q: Aren't groundwater levels stable? Are there risks to local water supplies?**

**A:** Studies have documented groundwater declines in portions of the basin, and hydrologists have warned that large-scale groundwater extraction associated with industrial development could affect groundwater levels and spring flows.

**Q: Will the NCA close public lands?**

**A:** No. The goal is not to "lock up" or close public lands. The goal is to conserve the resources that make these lands special while maintaining public access.
